

exceptional comfort

A guest house can offer much more than a night's stay — guest houses provide the same privacy, convenience, and comfort as one's own home. The Ivinson Memorial Hospital Guest House was built with the goal of providing world-class care to patients, families, and friends in mind. This home allows families to truly rest and recharge so they can better tend to their loved ones and approach healthcare matters with a clear mind.

PURPOSE

Guest House Vision

We understand the rural nature of our region requires many patients to travel long distances, and some guests may be here for unforeseen reasons. We want to enhance the patient experience by providing an affordable, comfortable environment for patients and families who are guests in our community.

Guest House Mission

To provide a welcoming home-like experience while you or someone you care for receives healthcare treatment.
